#### Emergency Overview

CAUTION. May cause eye irritation.

**POTENTIAL HEALTH EFFECTS** (for more details, refer to Section 11)

**Primary entry route(s):** Eye and ingestion.

**Eye:** May cause irritation, redness, tears, burning sensation.

**Skin:** Not applicable

**Inhalation:** No effect expected.

**Ingestion:** May cause slight irritation, headache, abdominal pain, diarrhoea, nausea and vomiting.

**Long-term (chronic) exposure:** Not applicable

**Conditions aggravated by exposure:** None expected.

**Carcinogenic status:** See TOXICOLOGICAL INFORMATION, Section 11.

**Additional health hazards:** For further information, see TOXICOLOGICAL INFORMATION, Section 11.

**Potential environmental effects:** See ECOLOGICAL INFORMATION, Section 12.

**SECTION 4 - FIRST AID MEASURES**

**Eye contact:**

Flush or rinse eyes with water immediately after contact. Call a physician if irritation persists.

**Skin contact:**

Not applicable.

**Inhalation:**

No effect expected.

**Ingestion:**

If conscious, rinse mouth with water. Never give anything by mouth if the person is unconscious. Do not induce vomiting. In case of discomfort, seek medical attention.

**SECTION 5 - FIRE FIGHTING MEASURES**

**Fire hazards/conditions of flammability:**

Not flammable. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

**Flash point (Method):** None

**Lower flammable limit (% by volume):** N/Av

**Upper flammable limit (% by volume):** N/Av.

**Explosion data - Sensitivity to mechanical impact:** Not sensitive

**Explosion data - Sensitivity to static discharge:** Not sensitive

**Auto-ignition temperature:** N/Av

**Suitable extinguishing media:**

Water, foam, dry chemicals, carbon dioxide.

**Special fire-fighting procedures/equipment:**

During a fire, irritating smoke and fumes may be generated. A self-contained breathing apparatus is required for fire-fighting personnel to protect themselves from irritating products produced during the combustion. Move containers from fire area if it can be done without risk. A stream of water directed into the product generates a lot of foam.

**Hazardous combustion products:**

Oxides of carbon, nitrogen and other irritating gases.

**SECTION 6 - ACCIDENTAL RELEASE MEASURES**

**Personal precautions:**

Not applicable (See Section 8).

**Spill response/Cleanup:**

Stop the leak. For large spills, pump the product into drums or clean up spills using absorbent material. Resume cleaning by rinsing with water. Caution: floors will be slippery.

**Environmental precautions:**

Biodegradable.

**Prohibited materials:** N/Av

**Special spill response procedures:** N/Av
